

Devin Thompson

Supervisor of Respiratory Therapy Services
Sidra Medicine

Devin is a registered respiratory therapist with seven years of neonatal and pediatric intensive care experience. Devin began his career in healthcare at British Columbia Children's Hospital (BCCH) after graduating from respiratory therapy school in Ottawa, Ontario. Devin started his experience in health leadership in positions of education (staff development coordinator, clinical site coordinator) working with BCCH and Thompson Rivers University in British Columbia, Canada. He has taught workshops, presented quality projects and lectured at international conferences located throughout North and South America and the Middle East. Devin currently works as a supervisor of respiratory therapy services at Sidra Medicine in Doha, Qatar.

Devin's primary passion is working with the extremely vulnerable, which guided his decision to work in neonatal and pediatric intensive care. Interests outside of tertiary care include care for the mentally and physically disabled, and persons suffering from addiction.

Devin is currently enrolled in a Master of Management (International Health Leadership) Degree through the Desautels Faculty of Management at McGill University in Montreal, Canada. He is employing his learnings from this degree to his job at Sidra Medicine, and hopes to continue to build on his leadership skills in the healthcare sector.
